Independent Auditor's Report

The Board of Directors Cass Rural Water Users District Kindred, North Dakota

Report on the Audited Financial Statements

Opinion

We have audited the financial statements of the business-type activities of the Cass Rural Water Users District (the District), as of and for the years ended December 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Cass Rural Water Users District as of December 31, 2024 and 2023, and the respective changes in financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Notes 2 and 12 to the financial statements, the District has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences* for the year ended December 31, 2024. As a result of this implementation, a restatement has been made to the net position as of January 1, 2023. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinion on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the schedule of directors, officers, and manager and comparative schedule of operations, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated March 25, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Erde Bailly LLP

Fargo, North Dakota March 25, 2025

This section of the District's financial report presents our analysis of the District's financial performance during the fiscal years ended December 31, 2024 and 2023. Please read it in conjunction with the financial statements, which follow this section.

The information in this MDA is presented under the following headings:

- Financial Highlights
- Organization and Business
- Statement of Net Position Overview
- Capital Assets and Debt Administration
- Statement of Revenues, Expenses and Change in Net Position Overview
- Factors Bearing on the District's Future
- Request for Information

Financial Highlights

- Assets Increased approximately \$25.6 million primarily due to completion of construction projects and other capital asset additions.
- Operating Expenses Increased approximately 2.0% due to increases in transmission and distribution expenses, as well as general personnel costs.

Organization and Business

Cass Rural Water Users District provides water service to approximately 9,025 rural residences and 15 communities in Cass County and parts of Trail, Barnes, Ransom and Richland counties serving a total estimated population of approximately 20,000 in a 2,000 square mile service area. The District is a political subdivision of the State of North Dakota pursuant to Chapter 61-35 of the North Dakota Century Code. The District recovers costs of services through user fees.

Statement of Net Position Overview

	2024	2023 (as restated)	2022*
Assets Current assets Other property and investments Water Plant, net of accumulated depreciation	\$ 26,313,376 18,753,714 120,470,629	\$ 23,233,027 17,636,250 99,105,525	\$ 16,567,583 16,941,860 66,449,005
Total assets	\$ 165,537,719	\$ 139,974,802	\$ 99,958,448
Liabilities Current liabilities Long-term liabilities, less current maturities Total liabilities	\$ 8,297,426 49,956,121 58,253,547	\$ 11,620,185 34,204,063 45,824,248	\$ 3,703,089 25,308,693 29,011,782
Deferred Inflows of Resources Lease receivable	37,489	61,228	85,102
Net Position Net investment in capital assets Restricted for debt service Unrestricted	64,596,719 25,158,489 17,491,475	59,280,606 22,269,698 12,539,022	38,226,735 13,961,818 18,673,011
Total net position	107,246,683	94,089,326	70,861,564
Total net position, liabilities, and deferred inflows of resources	\$ 165,537,719	\$ 139,974,802	\$ 99,958,448

*Effective January 1, 2023, the District adopted provisions of GASB Statement No. 101 *Compensated Absences*. As a result of this change in accounting principle, it was not appropriate for the District to restate prior period information for earlier periods than those presented in the basic financial statements. Therefore, information for the year ended December 31, 2022 was not restated.

The total assets of the District increased by 18.3%, from \$140.0 million to \$165.5 million. The approximate change in the total assets is broken down as follows:

Water Plant in service and Construction in Progress	\$ 21,365,000
Current Assets	3,080,000
Other Property and Investments	1,117,000

The increase in Water Plant in service and Construction in Progress was a result of the additional construction projects and other capital asset additions.

The increase in current assets and the increase in other property and investments were a result of an increase in investments and new special assessments.

The net position of the District increased by approximately \$13.16 million.

Capital Assets and Debt Administration

At the end of 2024, the District had approximately \$120.5 million (net of accumulated depreciation) in a broad range of utility capital assets and other property. The investment in capital and other property assets includes land, buildings, improvements, water treatment plants, water transmission and distribution mains, water storage facilities, pump stations, machinery, equipment, and certain intangible assets. The District's net revenue, long term debt and contributions from customers are used to finance these capital investments. More detailed information concerning the additions and retirements appears in Note 5 of the financial statements.

As of December 31, 2024, the District had total long term debt including current maturities outstanding of approximately \$55.9 million. The District invests funds in certificates of deposit and other similar investments in such a manner so that as these investments mature funds are available to make the necessary payments. As of December 31, 2024, the District had funds on hand to make all debt payments through the year 2025. The details of the various debt instruments are presented in more detail in Note 7 of the financial statements.

Statement of Revenues, Expenses and Change in Net Position Overview

	2024	2023 (as restated)	2022*
Total Revenues	\$ 19,481,185	\$ 30,297,214	\$ 12,058,083
Total Expenses	9,753,828	9,363,138	8,160,441
Income Before Capital Contributions	9,727,357	20,934,076	3,897,642
Capital Contributions Special assessment	3,430,000	2,370,000	1,809,101
Change in Net Position	13,157,357	23,304,076	5,706,743
Net Position, Beginning of Year	94,089,326	70,785,250	65,154,821
Net Position, End of Year	\$ 107,246,683	\$ 94,089,326	\$ 70,861,564

*Effective January 1, 2023, the District adopted provisions of GASB Statement No. 101 Compensated Absences. As a result of this change in accounting principle, it was not appropriate for the District to restate prior period information for earlier periods than those presented in the basic financial statements. Therefore, information for the year ended December 31, 2022 was not restated.

Overall operating revenues increased by 31.3% or approximately \$3,320,000. Metered sales increased by approximately \$3,320,000. Overall operating expenses increased by 2.0% or approximately \$170,000. The increases in operating revenues and expenses were due to an increase of serviced customers, as well as additional usage. Capital contributions increased by 1,060,000 due to more special assessment districts added in 2024 compared to 2023.

Factors Bearing on the District's Future

There are a number of factors or issues that have a bearing on the future of Cass Rural Water District that can be broken down as follows:

- Water Supply Cass Rural Water District is dependent on ground water as its primary source of water. One of the three aquifers the District utilizes has a finite life of perhaps another 25 to 30 years. As a result, the District has been very active with the Lake Agassiz Water Authority to develop a more dependable source of water.
- Territorial Integrity Due to the rapid growth of the urban areas around Fargo, West Fargo and Horace, these cities have extended their boundaries into areas that overlap the District's boundary. To date, the District has been able to negotiate reasonable arrangements with these cities to address these territorial issues. The District will continue to foster good working relationships these cities, as well as making an effort to keep abreast of any legal developments in this area of federal law.
- Federal Regulation Each year the Environmental Protection Agency issues new rules for the regulations of public drinking water systems. With each new regulation comes increased costs and additional record keeping requirements. The District is committed to meeting all applicable drinking water standards while keeping costs as reasonable as possible.

Request for Information

This financial report is designed to provide ratepayers and creditors with a general overview of the District's finances and demonstrate the District's accountability for monies it receives. If you have any questions about this report or need additional information, please contact: The General Manager, Cass Rural Water District, P.O. Box 98, Kindred, North Dakota 58051.

Note 1 - Organization and Nature of Operations

The District was organized and formally incorporated as of November 6, 1973, for the express purpose of providing water service in the state of North Dakota for the use and benefit of its members on a cooperative basis. Effective September 1, 2002, the organization reorganized as a water district under the authority of the North Dakota Century Code Chapter 61-35. The District is accounted for as a special purpose government engaged in a business-type activity. Business-type activities are used to account for operations that are financed or operated in a manner similar to the private sector, where the intent is that cost of providing services to the general public on a continuous basis be financed or recovered primarily through user charges.

Note 2 - Summary of Significant Accounting Policies

General

The public utility activities of Cass Rural Water Users District (District) are non-regulated as such. However, the District follows the National Association of Regulatory Utility Commissioners' Uniform System of Accounts prescribed for Class A and B Water Utilities.

Reporting entity

For financial reporting purposes, a reporting entity's financial statements should include all component units over which another component unit (oversight unit) exercises financial accountability. Financial accountability includes such aspects as appointment of governing body members, designation of management, the ability to significantly influence operations and accountability for fiscal matters.

Based upon the above criteria, the District is not includable as a component unit within another reporting entity and there are no component units to be included within the District as a reporting entity.

Basis of Accounting

The District's basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements. The accompanying financial statements have been presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows.

With respect to business-type activities, Cass Rural Water Users District has adopted GASB statement No. 62 "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989, FASB and AICPA Pronouncements." These activities are those normally financed in whole or in part by fees and charges for services to external parties. The District's activities are accounted for similar to those often found in the private sector using the flow of economic resources measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position, and cash flows. All assets, liabilities, deferred inflows of resources, net position, revenues and expenses are accounted for through a single businesstype activity.

Cash and Cash Equivalents, and Investments

The District's cash and cash equivalents consist of all cash sources and certificates of deposit that have an original maturity of three months or less.

Short term investments consist of certificates of deposit with original maturity dates of over three months to twelve months. Long term investments consist of certificates of deposit with original maturity dates of over twelve months.

Investment in asset backed securities are reported at fair value. Fair value is determined based on quoted market prices if available or estimated fair value using quoted market prices for similar securities. Interest, dividends, gains and losses, both realized and unrealized, on investments in debt and equity securities are included in investment income.

Cash and Cash Equivalents - Restricted

Cash and cash equivalents – restricted consist of funds restricted in accordance with bond indenture agreements and capital reserves.

Receivable and Credit Policy

Trade receivables are uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. Customers are charged a one-time 10% charge for late payments. The receivables are non-interest bearing. Payments on trade receivables are applied to the latest unpaid invoices. The carrying amount of trade receivables is reduced by a valuation allowance that reflects management's best estimate of the amounts that will not be collected. Based on management's assessment, uncollectible accounts are unlikely and therefore, an allowance for doubtful accounts has not been set up for the years ended December 31, 2024 and 2023.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items are reported using the consumption method and recorded as an expense at the time of consumption.

Lease Receivables

Lease receivables are recorded by the District as the present value of future lease payments expected to be received from the lessee during the lease term, reduced by any provision for estimated uncollectible amounts. Lease receivables are subsequently reduced over the life of the lease as cash is received in the applicable reporting period. The present value of future lease payments to be received are discounted based on the interest rate the District charges the lessee.

Plant Additions and Retirements

Water plant is stated at cost. The cost of additions to utility plant includes contracted work, direct labor and materials, and allocable overheads. When units of property are retired, sold or otherwise disposed of in the ordinary course of business, their average book cost, less net salvage, is charged to accumulated provision for depreciation. Repairs and the replacement and renewal of items determined to be less than units of property are charged to maintenance expense. Capital assets are defined by the District as assets with an initial, individual cost equal to or greater than \$500, except for plant which is capitalized in their entirety.

Right to use leased assets are recognized at the lease commencement date and represent the District's right to use an underlying asset for the lease term. Right to use leased assets are measured at the initial value of the lease liability plus any payments made to the lessor before commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term, plus any initial direct costs necessary to place the asset into service. Right to use leased assets are amortized over the shorter of the lease term or useful life of the underlying asset using the straight-line method. The amortization period is dependent on each respected lease.

Depreciation

The District utilizes composite depreciation methods for each distribution plant account. The rates are determined based on management's estimate of the average useful life of the assets along with future cost of removal and salvage factor estimates. Industry guidelines are also utilized to assist with determining the appropriate rates.

Recoverability of Long-Lived Assets

The District reviews the carrying value of water plant for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. An impairment loss is recognized when estimated undiscounted cash flows expected to result from the use of the asset plus net proceeds expected from disposition of the asset are less than the carrying value of the asset. Management has determined that no impairment exists at December 31, 2024 and 2023.

Intangible Assets and Amortization

Intangible assets are stated at amortized cost. The intangible assets are the right to supply treated wastewater and treat the wastewater return flow for a period of years to come. They are being amortized on a straight-line basis over the life of the agreement, which is over 20 years. The project was completed at the end of 2009. The amortization expense recorded in 2024 and 2023 was \$521,169. Additional amortization expense relating to right-to-use leased assets of \$4,458 in 2024 and \$6,008 in 2023, are included in the Statements of Revenues, Expenses, and Changes in Net Position.

Long-Term Liabilities

Long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

Lease liabilities represent the District's obligation to make lease payments arising from the lease. Lease liabilities are recognized at the lease commencement date based on the present value of future lease payments expected to be made during the lease term. The present values of lease payments are discounted based on a borrowing rate determined by the District.

Compensated Absences

Employees accrue vacation leave annually at a rate of 5 to 25 days depending on years of service. Unused accrued vacation leave may be carried over at each year-end, up to the maximum of two times the annual vacation amount. Upon termination, vacation benefits that have accrued through the last day of work will be paid.

Sick leave is accrued at a rate of 1 day per month for all employees. Up to a maximum of 66 days of sick leave may be carried over at each year-end. Upon termination, all amounts of unused sick leave will be forfeited.

A liability for vested or accumulated vacation and sick leave is reported in the statement of net position.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one type of items that qualify for reporting in this category, related to leases where the District is the lessor. The deferred inflows of resources related to leases are recognized as an inflow of resources (revenue) on the straight-line basis over the term of the lease.

Operating and Nonoperating Revenues and Expenditures

The District reports operating revenues and expenses separately from nonoperating items. Operating revenues and expenses generally result from producing and delivering goods in connection with the District's principal ongoing operations. The principal operating revenues of the District are charges to customers for sale of water. Operating expenses for the District include the costs of sales, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Revenue Recognition

Revenue from water sales is reflected in the accounts at the time delivered.

Business and Credit Risk

The District provides water service on account to its members which are located primarily in Cass County, North Dakota.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Adoption of New Standard

As of December 31, 2024, the District adopted GASB Statement No. 101, *Compensated Absences*. The provisions of this standard modernize the types of leave that are considered a compensated absence and provides guidance for a consistent recognition and measurement of the compensated absence liability. The accounting change has been retrospectively applied for all periods presented and the effect of the implementation of this standard on beginning net position is disclosed in Note 12.

Note 3 - Deposits and Investments

The District's investments are generally reported at fair value, as discussed in Note 2. At December 31, 2024, the District had the following investments, all of which are held in the District's name by various custodial banks that were agents of the District:

Investment Type	Fari Value	Less than 1	1-5
Certificate of Deposits	\$ 9,669,000	\$ 9,429,000	\$ 240,000
Asset backed securities	\$ 11,107	\$ 11,107	\$ -

As of December 31, 2023, the District has the following investments and maturities:

Investment Type	Fair Value	Less than 1	1-5
Certificate of Deposits	\$ 8,315,000	\$ 7,835,000	\$ 480,000
Asset backed securities	\$ 13,323	\$ 13,323	\$-

Interest Rate Risk

Interest rate risk is the risk that exists when fair values are continually changing, and an investment is locked in at a fixed rate. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

At December 31, 2024 and 2023, the District had investments in asset backed securities of \$11,107 and \$13,323, respectively, which are valued using Level 2 inputs.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District does not have a formal policy to limit exposure to credit risk. The asset back securities noted above are not rated.

Concentration of Credit Risk

Concentration of credit risk is the risk that too many investments are held in any one issuer. The District does not have a formal investment policy that limits the total amount of securities that can be held with any one company or government agency.

The District maintains its cash in bank deposit accounts which exceed federally insured limits. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per depositor, per insured bank for each account ownership category. As of December 31, 2023, the District had approximately \$8,013,000 in excess of FDIC-insured limits, which were insured or collateralized by securities held in the District's name. As of December 31, 2024, the District had approximately \$10,558,000 in excess of FDIC-insured limits, of which approximately \$263,000 of deposits were not insured or collateralized by securities held in the District's name.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal policy to limit exposure to custodial credit risk.

In accordance with North Dakota Century Code, the District maintains deposits at those depository banks and brokerages authorized by the Board of Directors, all of which are covered by Federal Depository Insurance Corporation (FDIC) or Securities Investor Protection. Century Code requires that all of the District's deposits be protected by insurance, collateral or surety bond. The market value of the collateral pledged must be equal to or greater than 110% of the deposits not covered by insurance or bonds.

The carrying amount of deposits and investments shown above is in the District's balance sheet as follows:

	2024	2023
Carrying Amount Deposits in bank Certificates of deposit Asset backed securities	\$ 12,993,896 9,669,000 11,107	\$ 11,095,028 8,315,000 13,323
	\$ 22,674,003	\$ 19,423,351
Included in the Statement of Net Positions		
Cash and cash equivalents	\$ 4,952,281	\$ 3,877,522
Cash and cash equivalents - restricted	8,041,615	7,217,506
Investments - short term	9,440,107	7,848,323
Investments - long term	240,000	480,000
	\$ 22,674,003	\$ 19,423,351

Note 4 - Special Assessment Receivables

Pursuant to N.D.C.C. Chapter 61-35, the District is authorized to levy special assessments to provide for the cost of construction, repair, alteration, operation, and maintenance of a project with funds raised by special assessments. The District issues special assessments against properties in order to offer water service into territories. Special assessment payments are collected by the county and remitted to the District on a monthly.

The following is a summary of special assessments receivable at December 31, 2024:

Improvement District	Initial Year	Final Year	Annual Payment	Interest Rate	Remaining Balance
Maple Valley and Prairie Grove Phase 2	2010	2025	\$21,000 - \$27,000	2.60 - 4.50%	\$ 8,524

During 2007, the District entered into an agreement with Tharaldson Ethanol Plant I, LLC, to design and construct an ethanol plant in the Casselton Township. The project was completed in 2009 at a total cost of \$15,656,652. The project was financed by the District through a note from the North Dakota Public Finance Authority. Upon completion of the construction project, ownership of \$10,423,383 of the plant was transferred to the City of Fargo who is responsible for operation and maintenance of plant. Because the District retains the right to supply treated wastewater and treat the wastewater return flow for 20 years, that amount has been recorded as an intangible asset and is being amortized over the life of the agreement. The District will own, operate, and maintain the remaining \$5,233,269.

As security for Tharaldson's debt service obligations, the District required personal guarantee of Gary Tharaldson for the bonding and required one year's bond payment (Upfront Deposit) to be held by a mutually agreed-upon third party, with a balance of \$872,764 as of December 31, 2024, which is included in long-term debt. Until the bonds are retired, Tharaldson will make payment to the District for the bond payment amount, plus an additional 20%, which the District will place in a reserve fund. Interest earned on the reserve fund will be held for Tharaldson's debt service payment schedule. As of December 31, 2024, the reserve fund had a balance of \$2,878,531, which is included in cash and cash equivalents - restricted. During the years ended December 31, 2024 and 2023, the District received \$1,236,408 for these debt payments, and the amounts are included in operating revenues on the statements of revenues, expenses, and changes in net position. Subsequent to year end, the aforementioned debt service obligations were paid off.

As of December 31, 2023:

	Balance 1/1/23	Additions	Retirements	Balance 12/31/23

Note 6 - Leases

Lease Receivable

The District has leases in place to rent land to various third parties. The leases vary in length from four to five years and the District will receive total annual payments of \$25,000. The District recognized \$23,738 in lease revenue and \$1,471 in interest revenue during year ending December 31, 2024. The District recognized \$323,874 in lease revenue and \$979 in interest revenue during the year ending December 31, 2023. These revenues are included in miscellaneous nonoperating revenue on the statements of revenues, expenses, and changes in net position. As of December 31, 2024 and 2023, the District's receivable for the lease payments was \$37,489 and \$61,228, respectively. Also, the District has a deferred inflow of resources associated with the leases that will be recognized as revenue over the lease term. As of December 31, 2024 and 2023, the balance of the deferred inflow of resources was \$37,489 and \$61,228, respectively.

Lease Payable

The District has entered into lease agreements as the lessee for the acquisition and use of office equipment. As of December 31, 2024 and 2023, the value of the lease liability was \$17,682 and \$13,882, respectively. The leases require the District to make annual principal and interest payments and have an interest rate of 2.00%. Useful lives of the assets vary from 2 to 5 years. The carrying value of the right-to-use leased assets as of December 31, 2024 and 2023, was \$17,682 and \$13,882, respectively. During the year ending December 31, 2024, the District recorded amortization expense of \$4,458 and interest expense of \$243 related to leases. During the year ending December 31, 2023, the District recorded amortization expense of \$6,008 and interest expense of \$157 related to leases.

The future principal and interest payments as of December 31, 2024, were as follows:

Years Ending December 31,	Pri	Principal				
2025 2026 2027 2028 2029	\$	6,210 6,088 2,919 1,855 610	\$	354 476 243 173 66		
	\$	17,682	\$	1,312

All assets are pledged as security for these debts. The Bank of North Dakota and Radcliffe Revocable Trust notes require annual payments of principal and interest and the North Dakota Public Finance Authority notes require annual payments of principal and semi-annual payments of interest.

During 2022, the District authorized the issuance of \$2,500,000 of Cass Rural Water Users District Treatment Revenue Bond, Series 2022 to finance system improvements. The agreement requires semi-annual interest payments at a rate of 1.50% commencing March 2023 through September 2043. Annual principal payments are required to be made commencing September 2024 through September 2043. During the years ended December 31, 2024 and 2023, the District had additional draws of \$209,155 and \$1,495,845, respectively on this debt issuance.

During 2022, the District authorized the issuance of \$28,646,000 with the North Dakota Public Finance Authority Drinking Water State Revolving Fund. The agreement requires annual principal payments commencing September 2024 through September 2033. Semi-annual interest payments at an interest rate of 1.50% along with a 0.5% administration fee commence March 2023. During the years ended December 31, 2024 and 2023, the District had additional draws of \$16,940,040 and \$8,534,091, respectively on this debt issuance. During 2023, the District authorized the issuance of \$2,380,000 Improvement Bonds of 2023 to finance system improvements. The bonds have an interest rate of 4.00% to 4.375%. Annual principal and interest payments are required and commence May 2024 through May 2038. Annual principal payments commence September 2024 through September 2033.

During 2024, the District authorized the issuance of \$2,604,000 with the North Dakota Public Finance Authority Drinking Water State Revolving Fund. The agreement requires annual principal payments commencing September 2025 through September 2044. Semi-annual interest payments at an interest rate of 1.50% along with a 0.5% administration fee commence March 2025. As of December 31, 2024, \$1,107,464 has been drawn from the bond issuance.

During 2024, the District authorized the issuance of \$3,445,000 Improvement Bonds of 2024 to finance system improvements. The bonds have an interest rate of 3.40% to 4.15%. Semi-annual interest payments are required and commence May 2025 through May 2039. Annual principal payments commence May 2025 through May 2039.

Years Ending December 31,	Long-term Debt						
	Principal	Interest					
2025 2026 2027 2028 2029 2030 - 2034	\$ 6,058,346 6,151,448 6,273,640 7,224,340 5,298,308 20,545,146	\$ 1,228,656 1,088,276 955,630 816,679 677,624 1,867,334					
2035 - 2039	4,305,000 \$ 55,856,228	353,248 \$ 6,987,447					

Minimum principal and interest payments required are estimated as follows:

Note 8 - Compensated Absences

As of December 31, 2024, the District had the following compensated absences balances:

	Balance inuary 1, 2024	Additions		Payments		Balance December 31, 2024		Due within One Year	
Compensated Absences*	\$ 190,522	\$	-	\$	12,276	\$	178,246	\$	31,479

As of December 31, 2023, the District had the following compensated absences balances:

	Balance Inuary 1, 2023	Additions		Payments		Balance December 31, 2023		Due within One Year	
Compensated Absences*	\$ 173,276	\$	17,246	\$	-	\$	190,522	\$	31,844

*The roll-forward schedules only report the net change in compensated absences.

Note 9 - Major Customer

The District derived 10 percent or more of its revenue from the following customer during the years ended December 31, 2024 and 2023:

	2024	2023
Customer A Customer B	\$ 2,799, 2,922,	
	\$ 5,722,	022 \$ 2,573,342

As of December 31, 2024 and 2023, the District had accounts receivable due from customer A of \$217,039 and \$207,907, respectively, and accounts receivable due from customer B of \$25,573 and \$0, respectively.

Note 10 - Retirement Plan

Effective April 1, 2018, the District adopted a 457(b) salary deferral plan for full-time employees. Employee contributions are allowed to the limit allowed by IRS regulations and a match contribution is made by the District to a maximum of 7%. Employees are fully vested after 3 years. The amount of contributions paid by the District for the years ended December 31, 2024 and 2023, was \$79,838 and \$75,052, respectively.

Note 11 - Commitments and Agreements

Wholesale Water Agreements

The District is committed to purchase water from the City of Fargo under a wholesale water agreement. The District must purchase at least 500,000 gallons of treated water per month at \$3.65 per thousand gallons of treated water. This agreement has expired as of December 31, 2011, and another agreement has not been completed as of December 31, 2024. Both parties are operating under the terms of the expired agreement until a new agreement is signed, as no significant changes are expected.

The District is committed to sell water to the City of Horace under a wholesale water agreement. The District will sell potable water to the City of Horace, not to exceed a monthly maximum of 12,000,000 gallons, at a rate of \$3.75 per 1,000 gallons. Each year under the agreement, the rate is subject to change in accordance with the District's "Bulk User Rate" and upon prompt written notice to the City of Horace. This agreement will remain in effect until 2041.

City of West Fargo

The District entered into an agreement with the City of West Fargo on June 2005 in which the City of West Fargo purchased the rights and acquired a franchise to provide residential water services to the Westport Beach Additions located within the City of West Fargo city limits. In accordance with the agreement, the District agrees to release the Westport Beach Addition from its exclusive jurisdiction to the City of West Fargo as long as the City of West Fargo performs certain obligations, including installation of water meters at its own cost for each individual lot or user within the Westport Beach Addition, and payment of \$1,848 per meter installed to the District until the City of West Fargo has installed a meter for each individual lot within the Westport Beach Addition.

City of Oxbow

The District entered into an agreement with the City of Oxbow to provide billing and collection services for sewer services to the residents of the Bakke Subdivision and the Town of Hickson on a quarterly basis. Specific services to be provided by the District under this agreement included calculation, printing, and mailing of quarterly utility bills, receiving and processing payments from the citizens, account maintenance services such as name changes, adjustments, and address changes, and reasonable and necessary steps to collect amounts due from the citizens. The City of Oxbow agrees to a billing charge for the services provided. The initial cost to the City of Oxbow for the billing charge is \$1.89 per bill.

City of Horace

The District entered into an agreement relating to portions of new developments within the City of Horace that lay within the service territory of the District. The District has the exclusive right to provide water and water service to properties located within the District's service territory. Therefore, the City and the District have entered into an agreement in which the City agreed to construct the needed water infrastructure within the new development areas located within District territory. Upon completion, the City will sell the infrastructure within District territory to the District at the City's cost plus 13%. During the year ended December 31, 2024, there were no completed developments in the District's territory.

Metro Flood Diversion Authority

The District entered in an agreement with the Metro Flood Diversion Authority (the Authority) regarding the reimbursement of all costs associated with the Fargo-Moorhead Metropolitan Area Flood Risk Management Project (Diversion project). The District owns distribution lines within the territory of the Diversion project and any reasonable costs incurred by the District to move and meet all requirements of the Diversion project are subject to 100% reimbursement. As of December 31, 2024, the District has incurred total costs relating to this project of \$664,402.

North Dakota Soybean Processors and City of Fargo

The District entered into a memo of understanding between both the North Dakota Soybean Processors, LLC (NDSP) and the City of Fargo. Under this agreement, the District will construct a Membrane Treatment Plant is association with a soybean processing facility near Casselton, North Dakota. The project will be financed through a Cost-Share agreement with the State Water Commission, as well as bonds issued with the North Dakota Public Finance Authority. Upon completion of the project, the Membrane Treatment Plant will be transferred to the City of Fargo, who is responsible its operation and maintenance. At this time, the District will receive the exclusive right to supply treated wastewater to the facility for 20 years. This project is expected to be completed in 2025 with an estimated cost of \$38,000,000. As of December 31, 2024, the District has incurred total costs relating to this project of \$37,056,286.

The District also has a separate developers agreement with NDSP in regard to the bonds issued with the North Dakota Public Finance Authority to construct the Membrane Treatment Plant. NDSP has agreed to reimburse the District for the required annual principal and interest payments of the bonds. NDSP has also agreed to fund any reserve requirement associated with the bonds. For security of these payments, NDSP must file an irrevocable letter of credit satisfactory to the District, which will remain in place until the bonds are retired or otherwise no longer outstanding. As of December 31, 2024, the reserve fund had a balance of \$2,262,956, which is included in cash and cash equivalents - restricted. During the year ended December 31, 2024, the District received \$2,854,070 for the required debt payments, which are included in operating revenues on the statements of revenues, expenses, and changes in net position.

Note 12 - Restatement

Change in Accounting Principle

As of December 31, 2024, the District adopted GASB Statement No. 101, Compensated Absences. The provisions of this standard modernize the types of leave that are considered a compensated absence and provides guidance for consistent recognition and measurement of the compensated absence liability. The effect of the adoption of this standard is shown in the tables below.

December 31, 2023, Statement of Net Position:

	As Previously Reported		Adjustment		As Restated	
Current Liabilities Current maturities of compensated absences Accrued Vacation Long-Term Liabilities	\$	- 96,962	\$	31,844 (96,962)	\$	31,844 -
Compensated absences, less current maturities		-		158,678		158,678
Net Position Unrestricted	1	9,850,088		(93,560)	1	9,756,528

December 31, 2023, Statement of Revenues, Expenses and Changes in Net Position:

Department of Treasury Passed through the Sate of North Dakota - Department of Water Resources COVID-19 Coronavirus State and Local Fiscal Recovery Funds	21.027	Unknown	570,895	
Total Federal Financial Assistance			\$ 2,175,835	

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of the District under programs of the federal government for the year ended December 31, 2024. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position or cash flows of the District.

Note 2 - Summary of Significant Accounting Policies

Expenditures reported in the schedule are reported on the modified accrual basis of accounting. When applicable, such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

Note 3 - Indirect Cost Rate

The District has not elected to use the 10% de minimis cost rate.

Additional Reports December 31, 2024 and 2023 Cass Rural Water Users District

CPAs & BUSINESS ADVISORS

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Directors Cass Rural Water Users District Kindred, North Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of Cass Rural Water Users District(the District), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 25, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2024-001, 2024-002, 2024-003, and 2024-004, that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for the Major Federal Program; Report on Internal Control Over Compliance Required by the Uniform Guidance

The Board of Directors Cass Rural Water Users District Kindred, North Dakota

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited Cass Rural Water Users District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on the District's major federal programs for the year ended December 31, 2024. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2024.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report
 on internal control over compliance in accordance with the Uniform Guidance, but not for the
 purpose of expressing an opinion on the effectiveness of the District's internal control over
 compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency in *internal control over compliance* is a deficiency in *internal control over compliance* with a type of compliance is a significant deficiency in *internal control over compliance* is a deficiency or a combination of deficiencies, in a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Internal Control over Financial Reporting Material weaknesses identified Significant deficiencies identified not considered to be material weaknesses	Yes None Reported				
Noncompliance material to financial statements noted	No				
FEDERAL AWARDS					
Internal Control over Major Programs Material weaknesses identified Significant deficiencies identified not considered to be material weaknesses	No None reported				
Type of Auditor's Report Issued on Compliance for Major Programs	Unmodified				
Any Audit Findings Disclosed That Are Required to be Reported in accordance with the Uniform Guidance: 2 CFR 200.516	No				
Identification of Major Programs:					
Name of Federal Program	Federal Financial Assistance Listing				
Drinking Water State Revolving Fund	66.468				
Dollar threshold used to distinguish between Type A and Type B Programs:	\$ 750,000				
Auditee Qualified as Low-Risk Auditee? No					

Section I – Financial Statement Findings

2024-001 Segregation of Duties Material Weakness

Criteria – A good system of internal accounting control requires an adequate segregation of duties so that no one individual has incompatible responsibilities. No one person should have more than one duty relating to the authorization (approval), custody of checks (check signers), cash receipts, record keeping, reconciliation functions, general ledger maintenance, and information technologies.

Condition – The District has a lack of segregation of duties due to a limited number of office personnel.

Cause – There is a limited amount of office employees involved in the internal control process.

Effect – Inadequate segregation of duties could adversely affect the District's ability to detect misstatements in amounts that would be material in relation to the financial statements in a timely period by employees in the normal course of performing their assigned functions.

Recommendation – The functions should be reviewed to determine if additional segregation of duties is feasible and to improve the efficiency and effectiveness of financial management and financial statement accuracy for the District. Segregation of authorization, custody of assets, record keeping, reconciliation functions, general ledger maintenance, and information technology systems would assist in mitigating the risk of fraud or misstatements to the financial statements.

Views of Responsible Officials – There is no disagreement with the finding.

2024-002 Material Journal Entries Material Weakness

Criteria – A good system of internal accounting control contemplates an adequate system for recording and processing entries material to the financial statements.

Condition – During the course of our engagement, we proposed material audit adjustment that would not have been identified as a result of the District's existing internal controls, and therefore could have resulted in a material misstatement of the District's financial statements.

Cause – District personnel do not have adequate training to apply U.S. generally accepted accounting principles internally.

Effect – Inadequate controls could adversely affect the District's ability to detect misstatements in amounts that would be material in relation to the financial statements.

Recommendation – It is important that you be aware of this condition. In situations like this, management's close supervision and review of accounting information is the best means of preventing and detecting errors and irregularities.

Views of Responsible Officials – There is no disagreement with the finding.

2024-003 Preparation of Financial Statements and Schedule of Expenditures of Federal Awards Material Weakness

Criteria – A good system of internal accounting control contemplates an adequate system for recording, processing entries material to the financial statements, and preparation of the financial statements and related notes and schedule of expenditures of federal awards (SEFA).

Condition – The District does not have an internal control system designed to provide for the preparation of the financial statements and SEFA being audited. As auditors, we were requested to, and did, draft the financial statements, SEFA, and accompanying notes to the financial statements.

Cause – District personnel do not have adequate training to apply U.S. generally accepted accounting principles internally.

Effect – This control deficiency could result in a misstatement to the financial statements and SEFA that would not be prevented or detected.

Recommendation – It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

Views of Responsible Officials – There is no disagreement with the finding.

2024-004 Account Reconciliation Differences Material Weakness

Criteria – A good system of internal accounting control contemplates an adequate system for correcting all differences noted between the trial balances and subledgers or supporting schedules.

Condition – During the course of our engagement, we identified differences in account reconciliations that would not have been identified as a result of the District's existing internal controls.

Cause – The District does not have an internal control system designed to accurately reconcile all accounts.

Effect – This deficiency could result in a misstatement to the financial statements that would not be prevented or detected.

Recommendation – A thorough review and reconciliation of accounts in each fund should take place prior to the beginning of the audit. This review should be done at both the accounting staff and supervisor levels.

Views of Responsible Officials – There is no disagreement with the finding.

Section II – Federal Award Findings and Questioned Costs

None reported.
